

## English

We will begin the term looking at different grammar aspects and focusing on developing our creative writing skills and our story writing. We will then move on to looking at different forms of non-fiction writing and focusing on the features seen in non-fiction writing. Finally, we will move onto the book 'The Train to Impossible Places'. We will build on a range of writing techniques whilst building the stamina of our writing at the same time.

## DT

For DT we will be investigating different Sandwich fillers. We will start with tasting different fillers, collecting data to find the most popular sandwich filler and then work to design and make our own sandwich.

## Art

Our Art topic is themed around Ancient Egypt, using our knowledge from our previous History topic. We will be exploring different forms of 3D sculpture, using Modroc to make death masks and clay for canopic jars.

## History

For our topic in History this term we are looking into the history of the local area. We will investigate the local area and consider which buildings hold significance and must be preserved. We will also continue to develop our use of appropriate historical terms.

## Physical Education

**Tag Rugby** – We will develop our understanding of the rules of Tag Rugby and develop the use and combination of techniques (e.g. Passing, Catching, Handling, Dodging, Off-the-ball Movement, Scoring).  
**Cricket and Rounders** – We will develop our understanding of the rules of Cricket (e.g. Scoring & Actions which make a batter 'Out') and our understanding of the concept of batting and fielding.  
**Athletics** – We will develop our understanding of the rules and regulations within various forms of 'Athletic events'.

## Maths

For the first half of the Summer Term we will be focusing on written calculations. We will begin with formal addition and subtraction and then move onto long multiplication and division. After half term we will be introduced to decimals and looking at numbers between 0-1 and 1-2. We will also cover area and calculating measure. Throughout the term we will continue to recap our understanding of number to ensure we are secure in it.

## Science

Our first topic for this term is 'Rocks, Fossils and Soil', where we will be looking at how fossils are made and classifying rocks into different groups. After half term, we will be investigating how sound is made and the vibrations created by different forms of sound.

## Geography

For Geography this term we will be learning about the coasts of the British Isles. We will consider similarities and differences between human and physical geography and consider tourism in an area.

## Computing

We will be looking at how images are made from pixels and how we can make images move.

## French

**Quel Temps Fait-Il?:** We will re-cap our previous learning about the weather and respond to 'Quel temps-fait il?'

**Boucle D'Or et Les Trois Ours:** We will use our thinking and listening skills to help identify key words in French version of Goldilocks & the Three Bears.

## RE

We will begin the term looking at Special Food associated within the different religions and their importance within the religions. After half term, we will look at the different buildings and places that people from different religions go to worship as well as how else these buildings are used.

## Music

We will be developing pen drumming skills and combining this with body percussion to perform an arrangement of 'Hair Up' from Trolls. We will also be exploring rhythmic composition skills by creating our own rhythms and fills.

## PSHE

For the first half term we will be focusing on relationships, understanding family, friendships and other relationships. Then we will move onto 'Changing Me', where we begin to look at the changes our body goes through.
